MAKE YOUR OUTDOOR LIVING-ROOM THIS SPRING

America's love for peace and order is never better demonstrated than in the small gardens that surround her homes. To most of us, growing green things brings a feeling of great satisfaction. A smooth shaded lawn bordered by healthy plants lends a charm to any home.

If you are like most home owners, you have somewhat neglected the permanent planting around your home these past several years. Have some shrubs, evergreens, and perennials grown beyond bounds? Have some partly died out or become diseased? Have you grown tired of the present arrangement of material?

The planning and planting of home grounds has been our business for many years. No problem is too difficult for us to handle, and no job too small for us to advise you about. Nearly every outdoor living-room may be planned to provide twelve months of color, privacy, security for children and never-ending interest. Our splendid collection of perennials, bulbs, shrubs, evergreens, hedge plants, flowering, shade, and fruit trees is at your command.

GALLANT FOX

MIXED VARIETIES

COLLECTION III

25 bulbs \$1.50 100 bulbs \$5.00
5 each of the 10 varieties
50 bulbs \$2.75
